

## Keychain anti-touch TUS

Code: **17856**

Price: **€1.70** Net

The anti-touch TUS key ring is a universal addition to the keys. With its help, you do not have to touch the handles or buttons directly, e.g. in an ATM. The key ring contains a coin for shopping carts and acts as a bottle opener. There is an elastic band fixed on the tip, so it can be easily used on touch screens. This is a useful gadget, especially during an epidemic. The key ring is packed in a brown paper envelope.
